Operations & Management: Multi-branch coordination, team supervision, operational support, social media management, content planning, audience engagement

PROFESSIONAL EXPERIENCE

IT & Technical Support / CCTV Technician / Social Media Manager | Banaybanay Cockpit Arena | 2023–Present

Provide on-site technical support during arena operations, troubleshooting computer hardware and software issues.

Install, replace, upgrade, and maintain CCTV cameras, cabling, and DVR systems.

Configure and troubleshoot Hikvision and Dahua DVR systems and remote CCTV access.

Support reliable operation of computers, networks, and surveillance equipment.

Manage the arena's Facebook page, prepare event announcements and promotional content, and support audience engagement.

Accounting Assistant | FGM Builders | 2015

Performed payroll data entry and supported payroll-related administration.

Handled liaison duties and coordination with relevant offices.

Processed permits and related business documents.

Facilitated payment of company bills and other administrative transactions.

Area Manager – Davao Area | Cosmetigroup Int'l Corp. | 2010–2013

Supervised operations across three Davao branches: Abreeza Mall, SM Lanang, and SM Ecoland.

Managed and coordinated a team of approximately 12 personnel.

Processed business permits and regulatory documents for the Davao branches.

Coordinated with the Bureau of Internal Revenue (BIR) on branch-related requirements.

Private Personal Driver | Private Employer | 2007–Present (occasional ongoing work)

Provided personal driving services alongside other employment and studies; continue to provide driving assistance when needed.

Respiratory Technician | Care4One Enterprise | March–July 2007

Received company training in medical ventilator setup and operation for patients using rented equipment.

Trained in ventilator connection and setup, weaning procedures, airway suctioning, and recognizing and responding to ventilator machine errors.

SELECTED SOFTWARE PROJECTS

Machine Betting System | Independent Project |

Developed a Python controller/server application with a browser-based teller workflow and centralized SQLite database.

Implemented fight management, bet recording, odds handling, teller sessions, and payout calculations.

M.D. Smart Barangay Management System | Independent Project |

Built a Flask-based management application with resident and household records, document workflows, incident-related modules, and local-first data storage.

M.D. Matching System 2.0 | Independent Project |

Developed a Python desktop application with matching logic and supporting interface components.

M.D. Cash Counting System | Independent Project |

Created a Tkinter-based cash-counting application supporting teller cash handling and balance computation.
